6th National Conference
Society of Otolaryngologists of Nepal
“Expanding Horizon in the field of Head and Neck Surgeries”

Dear Colleague,

We feel very glad that the Society of Otolaryngologists of Nepal is going to host sixth National Conference on 22nd-23rd Feb 2013 in Bharatpur Chitawan. More than 150 delegates are expected to participate. Fifth National Conference was held in 2009 in Pokhara, which was a grand success. Our aim is to make the forthcoming conference even better. For this your active participation is highly essential. A tremendous gap persists between the patient care in developed and the under developed countries. On one hand we talk of the recent advances whereas on the other hand people in this part of the world have not been able to avail even basic medical care. Lack of training centres for the youngsters is another major factor of concern and serious brainstorming is needed to overcome these factors. Though there is no national data available in the incidence of Head and Neck Cancers, but we do see abundance of such patient in the Clinics and Hospitals. The treatment at many times lacks proper Medical guideline. An awareness amongst the patients and a confusion of seeking a Head & Neck clinician does exists. Hence the theme of the conference “Expanding Horizon in the field of Head and Neck Surgeries” sounds very appropriate, looking into the current perspectives.
